The case was assigned to the Special Processing Unit of the Office of Special Masters.

Respondent also determined that the claim "meets the statutory severity requirements because [P]etitioner experienced sequelae of her GBS for more than six months." Therefore, Respondent concluded that "[P]etitioner has satisfied all legal prerequisites for compensation under the Act." *Id.* Respondent further agrees that the scope of damages to be awarded is limited to Petitioner's GBS and its related sequelae only. *Id.*

In view of Respondent's position and the evidence of record, I find that Petitioner is entitled to compensation.

IT IS SO ORDERED.
